

GLOBAL OBJECTIVES OF OUR HSQE INTEGRATED MANAGEMENT SYSTEM

1. Guarantee our customer's satisfaction with the results of our operations, meeting all requisites based on national and international regulations.
2. Meet the terms established with the customer for the delivery of Reports and of Certificates of Final Disposition.
3. Identify and control the dangers which may damage the property or the health of our workers as a result of our operations and which may have repercussions on our activities.
4. Minimize and reuse the wastes generated by our group of companies.
5. Achieve the full competence of our staff in accordance with each member's responsibilities and assigned positions, taking into consideration their education, formation, abilities and experience.
6. Evaluate the performance of suppliers in order to adopt joint actions which will facilitate our service's high quality.
7. Assure the efficacy and continuous improvement of our Integrated Management System through the measurement of process benchmarks.
8. Control the level of service of all suppliers which affect the quality of our projects by means of their performance.
